YOUR LINK TO  
*the Isle of Wight*  
WIGHTLINK

Have you seen our new ferry, Victoria of Wight? She's out and about on the Solent - you can tell it's her by the green swish on the side, letting everyone know that she's environmentally friendly. She's a hybrid energy ship, meaning she runs partly on electricity – a bit like hybrid cars.

Why not plan your family trip to the Mainland next year? There's so much to see and do - from historic ships and classic cars, to bustling cities and the famous sights of London.

Get there on a ferry from Ryde, Fishbourne or Yarmouth with Wightlink: [www.wightlink.co.uk](http://www.wightlink.co.uk)

## Enter our drawing competition to WIN!

Just draw your own picture of Victoria of Wight or an environmentally friendly ferry of the future for a chance to win a trip to the Mainland with your family\* and to have your drawing published on Wightlink's Facebook page.

Turn over to start!
