

English			Maths			
In our English lessons, we will start by developing our handwriting and fine motor skills, ensuring that we use the correct pencil grip, and form letters correctly. We will also continue learning some simple spellings. Following this, we will be focusing on grammar and punctuation, using The Place Value of Punctuation and Grammar from Grammarsaurus. We will be learning about nouns, verbs, subject, and subject/verb single-clause sentences. Y2 will then further develop this by using co-ordinating conjunctions to join clauses. We will also be exploring the book 'This is How We Do It' and will be creating our own class text based around this book using the skills we have learnt from Grammarsaurus.  Our RWI lessons will continue daily, as well as Reading lessons in which we will read and discuss a variety of picture books, and develop our vocabulary and comprehension.			 Our Maths lessons will focus on place value and addition and subtraction within 20 this half term. We will focus on counting, representing, ordering and building numbers using number tracks, ten frames and a variety of natural and mathematical resources. However, interwoven through this learning, the children will be encouraged to play with maths, developing their number sense and enabling an understanding of the patterns, and reasoning about what they see and use in their everyday lives.			
Science		Year 1 and 2 Bumblebee Class Topic Web		History		
In Science, the children will be exploring the topic of Animals including Humans and focusing on Sensitive bodies. They will be able to identify parts of their bodies and will be exploring all of the senses (taste, touch, sight, smell and hearing) and will be looking at them in context. 		 Autumn 1 2026		Our History enquiry question is 'How am I making History?' We will be exploring what History is and how they can find out more about themselves. The children will be looking at how special events are remembered and what it was like for children in the past. They will be able to explain what childhood was like in the past and compare it to their childhoods and how they are making History. 		
Art	Computing	Music	PSHE	PE	RE	
 In Art we will be exploring shape and lines including looking at musical lines and shapes within art pieces. We will have a focused session looking in depth at Klee portraits.	 Our Computing topic this half term is about Computer systems and networks, understanding what a computer does and improving mouse skills. The children will be looking at Computer parts and Inputs, exploring real world role play and will be developing their ability at Logging in and clicking and dragging skills.	We will be exploring Our Favourite Things: Keeping the Pulse in Music. We will be using our voices to find the pulse, sing a sound pattern, use a thinking voice, reading sound patterns and practicing what we have learnt. 	 In our PSHE sessions we will be thinking about Connecting with Others. We will be exploring how we can help ourselves and others to feel happy and safe. This will include an exploration of the concept special, what makes us feel safe and happy, friends, families, our class and our behaviour.	In PE this half term we will be exploring gymnastics. We will be listening to and following instructions. 	Our RE sessions this half term will ask 'what do Christians believe God is like?'  We will look at the parable of the Lost Son, and the Bible story Jonah and the Whale to aid our discussions.
